

Pop-up Stand

The Pop-up stand is designed to be used at exhibitions and trade shows, with a range of size options available. The graphic panels are hung on a collapsible frame. The hardware is covered by a 10-year guarantee.

- Available in both curved and straight options, can also be combined to create one larger display.
- Graphics are interchangeable, allowing for targeted marketing messages dependant on the type of event.
- Graphic is printed using UV stable inks so the colour impact will last for years.
- Printed onto a lightstop material, preventing light shining through the graphic when placed in front of bright lights or windows.
- Finished with a crystal laminate to protect the graphic from scratching and liquid splashes.
- Hard wheeled carry case, protects the frame and graphics whilst been transported or stored.
- The case can also be used as a handy counter by adding a table top and a wrap-around graphic providing the perfect place for promotional items or literature.
- Optional Lighting package - Illuminating your brand in dark venues or to highlight your offer.

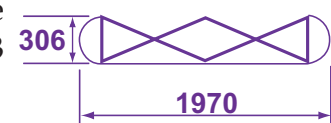

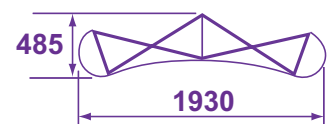

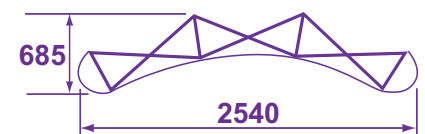

We have been supplying high quality cost-effective display solutions for exhibitions, events and networking, to businesses for since 2001.

Our reputation has been founded on delivering high quality products at reasonable prices which are delivered on time and on budget.

"I ordered some pull-up and table top banner stands. Great communication all the way, great design and fantastic product swiftly delivered before the expected turnaround. Very Highly recommended."

Steve Smithson, Talent Genius Ltd
